CRAFTSMAN

2012 SNOW THROWERS

88782

21" 208cc* SINGLE-STAGE SNOW THROWER W/ ELECTRIC START

2-WAY CHUTE CONTROL

190-degree chute rotation with ease of a joystick to discharge the snow where you want it

PERFORMANCE

- 208cc* 4-Cycle OHV Craftsman® engine provides more power, longer life, and improved fuel economy – no mixing of gas and oil required. Move more snow with a more powerful engine and save time out in the cold
- Push button electric start allows for easy and sure starts in cold temperatures
- 21 inch clearing width and 13 inch intake height lets you clear more snow with each pass, ideal for small to medium paved driveways, decks, and sidewalks
- Snow Claw™ auger technology reduces clogs and throws snow farther, with rubber paddles engaging the ground to clear pavement clean
- Auger-propelled forward speed – the ground engaging auger paddles pull the unit forward reducing effort to maneuver unit

DESIGN

- 2-way remote chute control – 190 degree chute rotation with ease of a joystick to discharge the snow where you want it, quickly and easily without leaving the operator's position
- In-dash headlight illuminates the clearing path
- 8" x 2.5" wheels allow for easy mobility when not throwing snow

CONVENIENCE

- Mitten-grip starter handle – easy to grasp and turnover recoil start while wearing gloves
- Ergonomic gull wing handle designed for a more comfortable grip and better control

WARRANTY

2 Year Limited Warranty

*As rated by engine manufacturer. Note: See specific model information. Not all features available on all models.
